

PRASHANT THORAT

Pune, Maharashtra, India | prashant.workemail0@gmail.com | 8591092251

GitHub: github.com/prashantthorat100 | LinkedIn: [linkedin.com/in/prashant-thorat-6b1165401/](https://www.linkedin.com/in/prashant-thorat-6b1165401/) | LeetCode: leetcode.com/u/prashantthorat100/

PROFILE

Computer Science & Engineering (Artificial Intelligence) student with 8.74 CGPA, strong foundation in Data Structures & Algorithms, OOP, DBMS, Operating Systems and Computer Networks, with hands-on experience in web development and AI/ML projects.

EDUCATION

Vishwakarma Institute of Technology, Pune — B.Tech. Computer Science & Engineering (Artificial Intelligence) | Expected 2028 | **CGPA: 8.74/10**

TECHNICAL SKILLS

Languages: C++, Java, JavaScript, Python, SQL

Frontend: React.js, HTML5, CSS3, React Router

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Databases: MongoDB, Mongoose, MySQL

AI/ML: TensorFlow, PyTorch, OpenCV, Machine Learning

Tools: Git, GitHub, Postman, VS Code

Core CS: Data Structures & Algorithms, OOP, DBMS, Computer Networks

PROJECTS

Deepfake Detector — AI-Powered Media Authenticity Platform <https://github.com/prashantthorat100/DeepfakeDetector.git>

React.js | Node.js | Express.js | MongoDB | Python | TensorFlow | OpenCV

- Developed a full-stack platform for detecting AI-generated images and videos using an ML inference pipeline.
- Implemented JWT authentication, role-based access, media uploads and detection history.
- Integrated OpenCV-based computer vision with Python ML inference and REST APIs.
- Built dashboards for detection results, trends and monitoring statistics.

BOOKMYSTAY — Full-Stack Vacation Rental Platform <https://github.com/prashantthorat100/BOOKMYSTAY>

React.js | Node.js | Express.js | MongoDB | Mongoose | JWT | Multer

- Developed a MERN platform for property search, filtering, booking and reviews.
- Implemented JWT authentication and role-based guest/host workflows.
- Built REST APIs for property CRUD, booking management, availability and reviews.
- Implemented image uploads, secure API routes and responsive React interfaces.

Wild-Track AI — Animal Detection & Mobile Notification System <https://github.com/prashantthorat100/WILD-TRACK.git>

Python | Deep Learning | Computer Vision | Object Detection | Mobile Notifications

- Developed an AI-based wildlife monitoring system for animal detection from camera/video feeds.
- Applied computer vision and deep learning for animal detection.
- Implemented a notification workflow to send mobile alerts when target animals are detected.

DATA STRUCTURES & ALGORITHMS

Practicing problem solving using Java.

Topics: Arrays, Strings, Sorting, Binary Search, Recursion, Linked Lists, Stacks, Queues, Trees, BST, Heaps, Hashing, Graphs, Greedy and Dynamic Programming. Regular practice on LeetCode and structured DSA problem sheets.

SOFTWARE DEVELOPMENT

Hands-on experience with MERN stack development, RESTful APIs, authentication, database modeling and Git/GitHub, with experience integrating AI/ML capabilities into web applications.
